## Approved For Release 2001/04/01: CIA-RDP82-00457R008700380009-3

CONSIDERATION OF THE ONLY

## 25X1Aszombathely.

25X1A

5. In June 1950, six or seven large tanks removed from railroad tank cars were observed in the Soviet fuel depot on Sceptei Street in Szonbathely (P 18/0 78), about 300 meters north of the intersection of this street with the railroad line to Koeszeg (P 18/X 60). The depot was guarded by Soviet sentries. The Hungarian ration supply depot on Sceptei Street was also used by Soviet troops.

## 25X1 Aungarian Inductions.

6. Although he had been registered for the draft in Koessea, together with 150 to 200 other draftees of the 1923 class, on 21 /pril 1949 and had filled no request for deferment from active duty, source had received no notice of induction prior to 2 Earch 1951, whereas numerous acquaintances of his, who belonged to the same class, were inducted in May 1949.
25X1A

Comments.

(1) Pursuant to the National Lefense Law of February 1950, all males are called up for active duty in the year in which they complete their 20th year of life. Hence, it is credible that contingents of the 1931 class were registered for the draft and were due for induction in the fall of 1951, 25X1A

(2) Compare with a previous report, by the same source. See

(3) Another refugee previously stated that the former municipal girls' highschool on the south side of Budsi Street was occupied by a Hungerish military agency in 1949. See 25X1A Rowsver, source of the present report may refer to the former veterans' orphanago, located on the sume street, which, according to a previous report by another refugee, still housed Soviet officer training courses in 1951. See 25X1A

(h) A previous report stated that a motorized artillery school of the Hungarian Army was located at Hajmasker as early as August 1950. See No artillery unit is known to be located in Vessprem.
